

Do's

- ✓ You have a chlorine pool.
- ✓ Verify the pool must be drained.
- ✓ Test pH for a 7 – 8 level.
- ✓ Use chlorine pool test strips or test vials. Water must be “Low” ≤ 0.1 ppm.
- ✓ Reuse your pool water on your landscaping when possible, if not then drain to the gutter/stormwater.
- ✓ Drain slowly to prevent flooding problems.
- ✓ Drain or back flush only when it's necessary.
